

# **DIVIDER SCREENS AND SAFE DISTANCE SINGAGE**

*For a safer post Covid work environment*

*Current offices and workstation setups*

*Open plan offices and shared desks in need of transformation*

# PROBLEM

---

- Governments may mandate a distance rule
- Employees concern of personal workplace safety
- Busier desks are harder to clean

# SOLUTION

- *Adapting workspaces*
- *Taking unobtrusive measures to make employees feel safe*
- *Versatile solutions*

2020 COVID -19 Office Development  
Part of the fuel4 group

## PLY

- *Able to divide open office spaces into unobtrusive closed plan spaces.*
- *Available in different sizes and screen options to suit office or brand style.*
- *Wheeled for usability and transportation.*
- *Perfect for open spaces, conference rooms, partitioning walkways and corridors.*

## PARTITION SCREENS

## DESK

- *Able to divide shared desks and produce safer working environments.*
- *Available in different sizes and screen options for specific needs.*
- *Making the office more enclosed for a post covid environment.*

## DIVIDER SCREENS

## Example configuration

Designed to butt up to each other for blocking out larger spaces if necessary and to be configured to any distance required.

## Interchangeable panels

Top panel is removable to allow panel to be interchangeable.

## Areas for branding

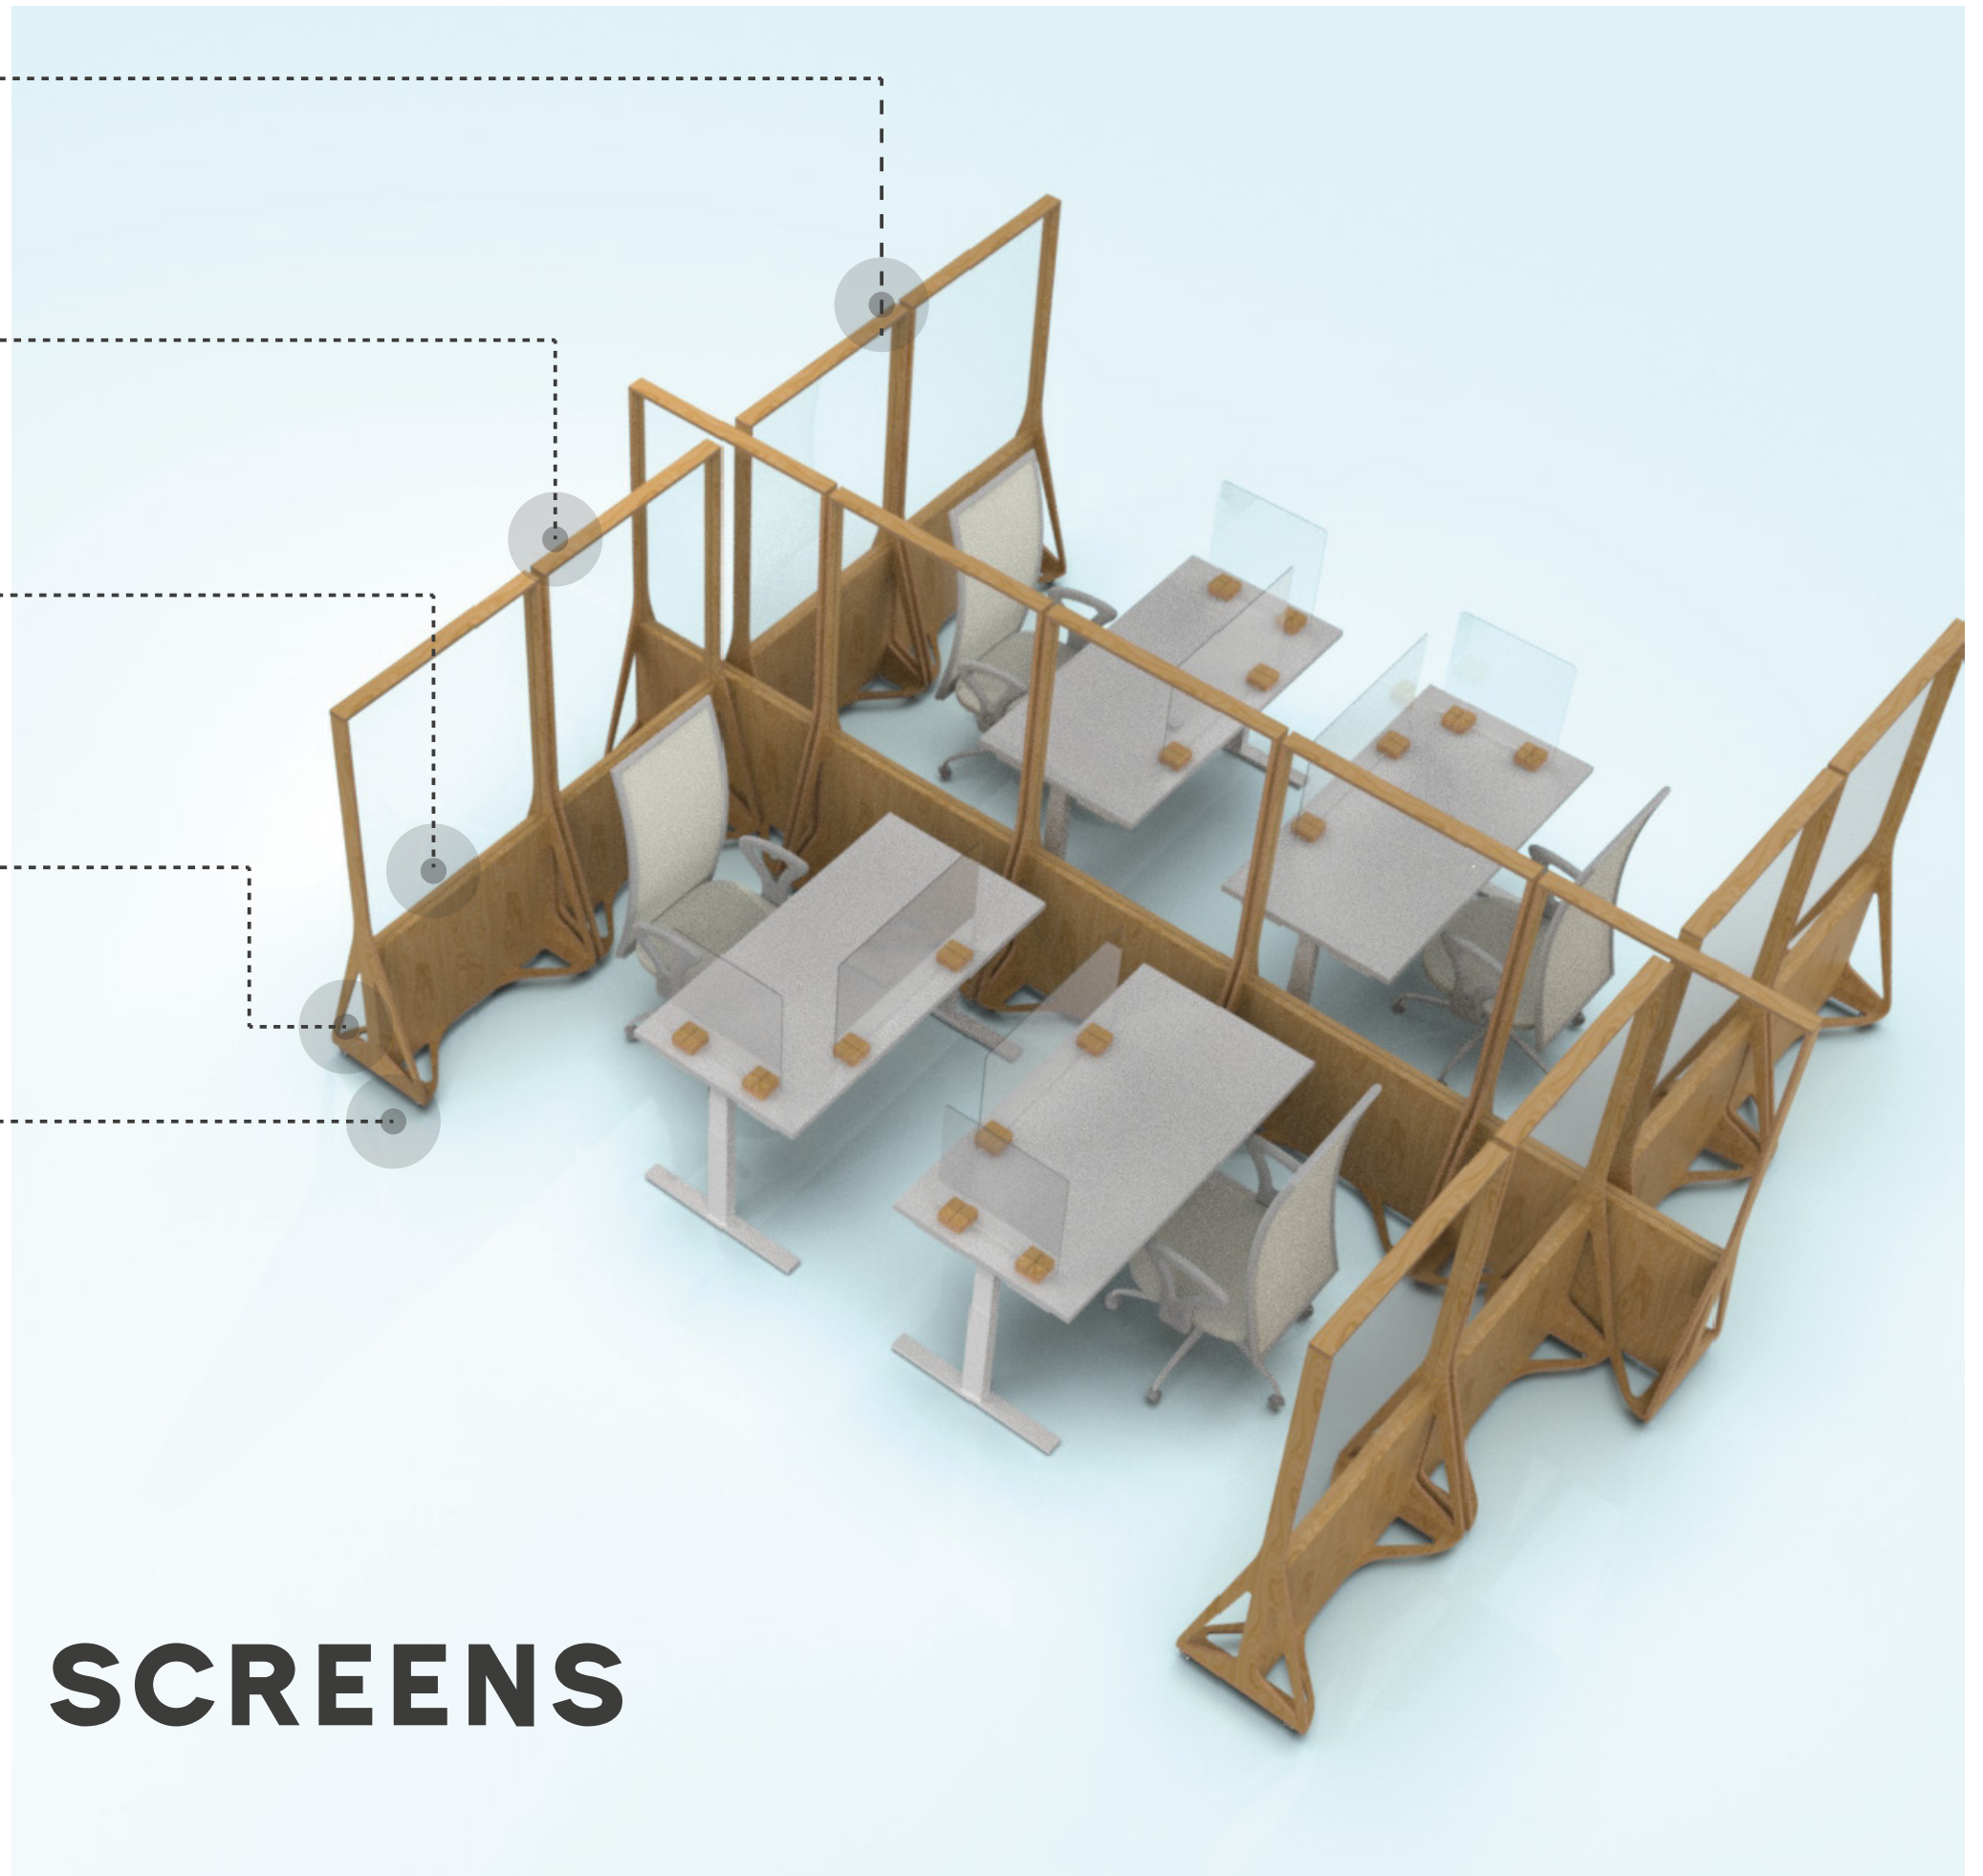

Bottom blocked out section can be an area for potential branding. As well as the main window panel.

## Aesthetics

Simple design made from CNC cut birch ply for an aesthetically pleasing yet rigid unit.

## Usability

Free standing wheeled units that can be moved about easily in an office environment.

*\*Prices do not include installation and delivery. If any install or delivery services are required, costs can be provided.*

## Example configuration

Supporting blocks designed with CNC recessed slots for easy setup and for numerous configurations.

## Top blocks

Top blocks designed to keep unit rigid when connecting a number of panels together.

## No fixings means more options

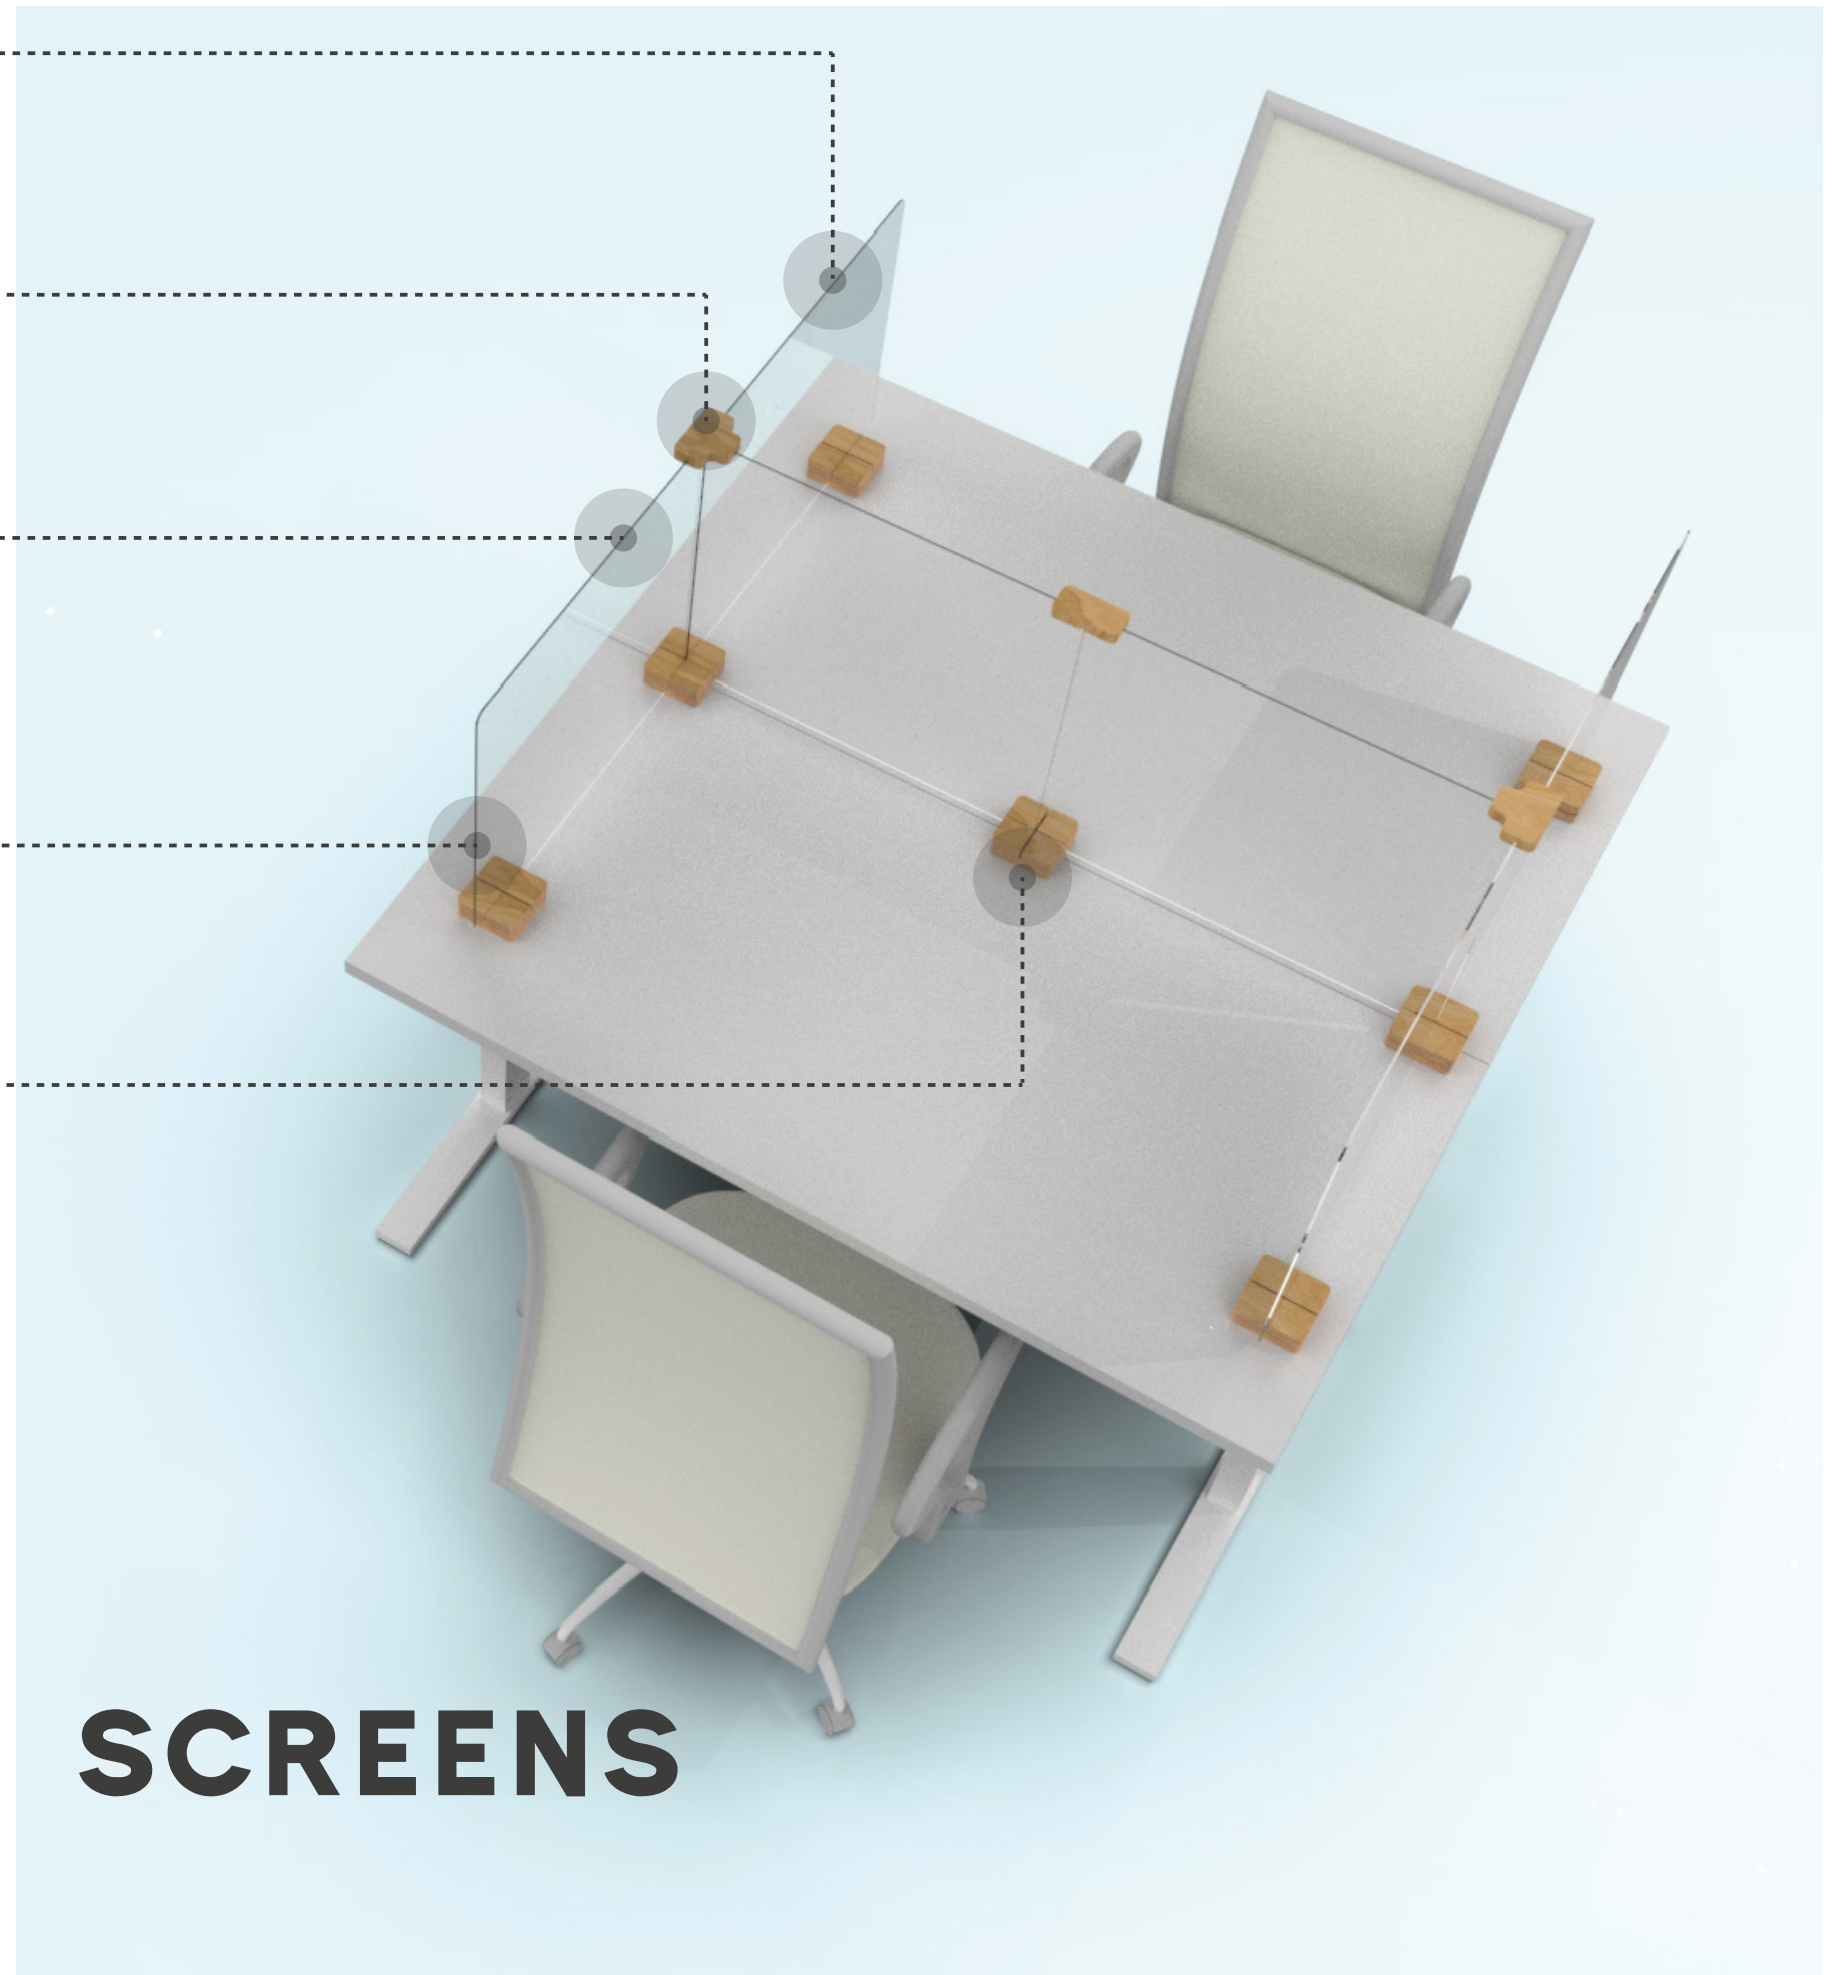

Panels are only held together by support blocks that have recessed slots. Panels can be removed for easy cleaning and design changeability.

## Bespoke options

Panels can be cut to bespoke shapes. For example a cut out section for monetary transactions.

## Aesthetics

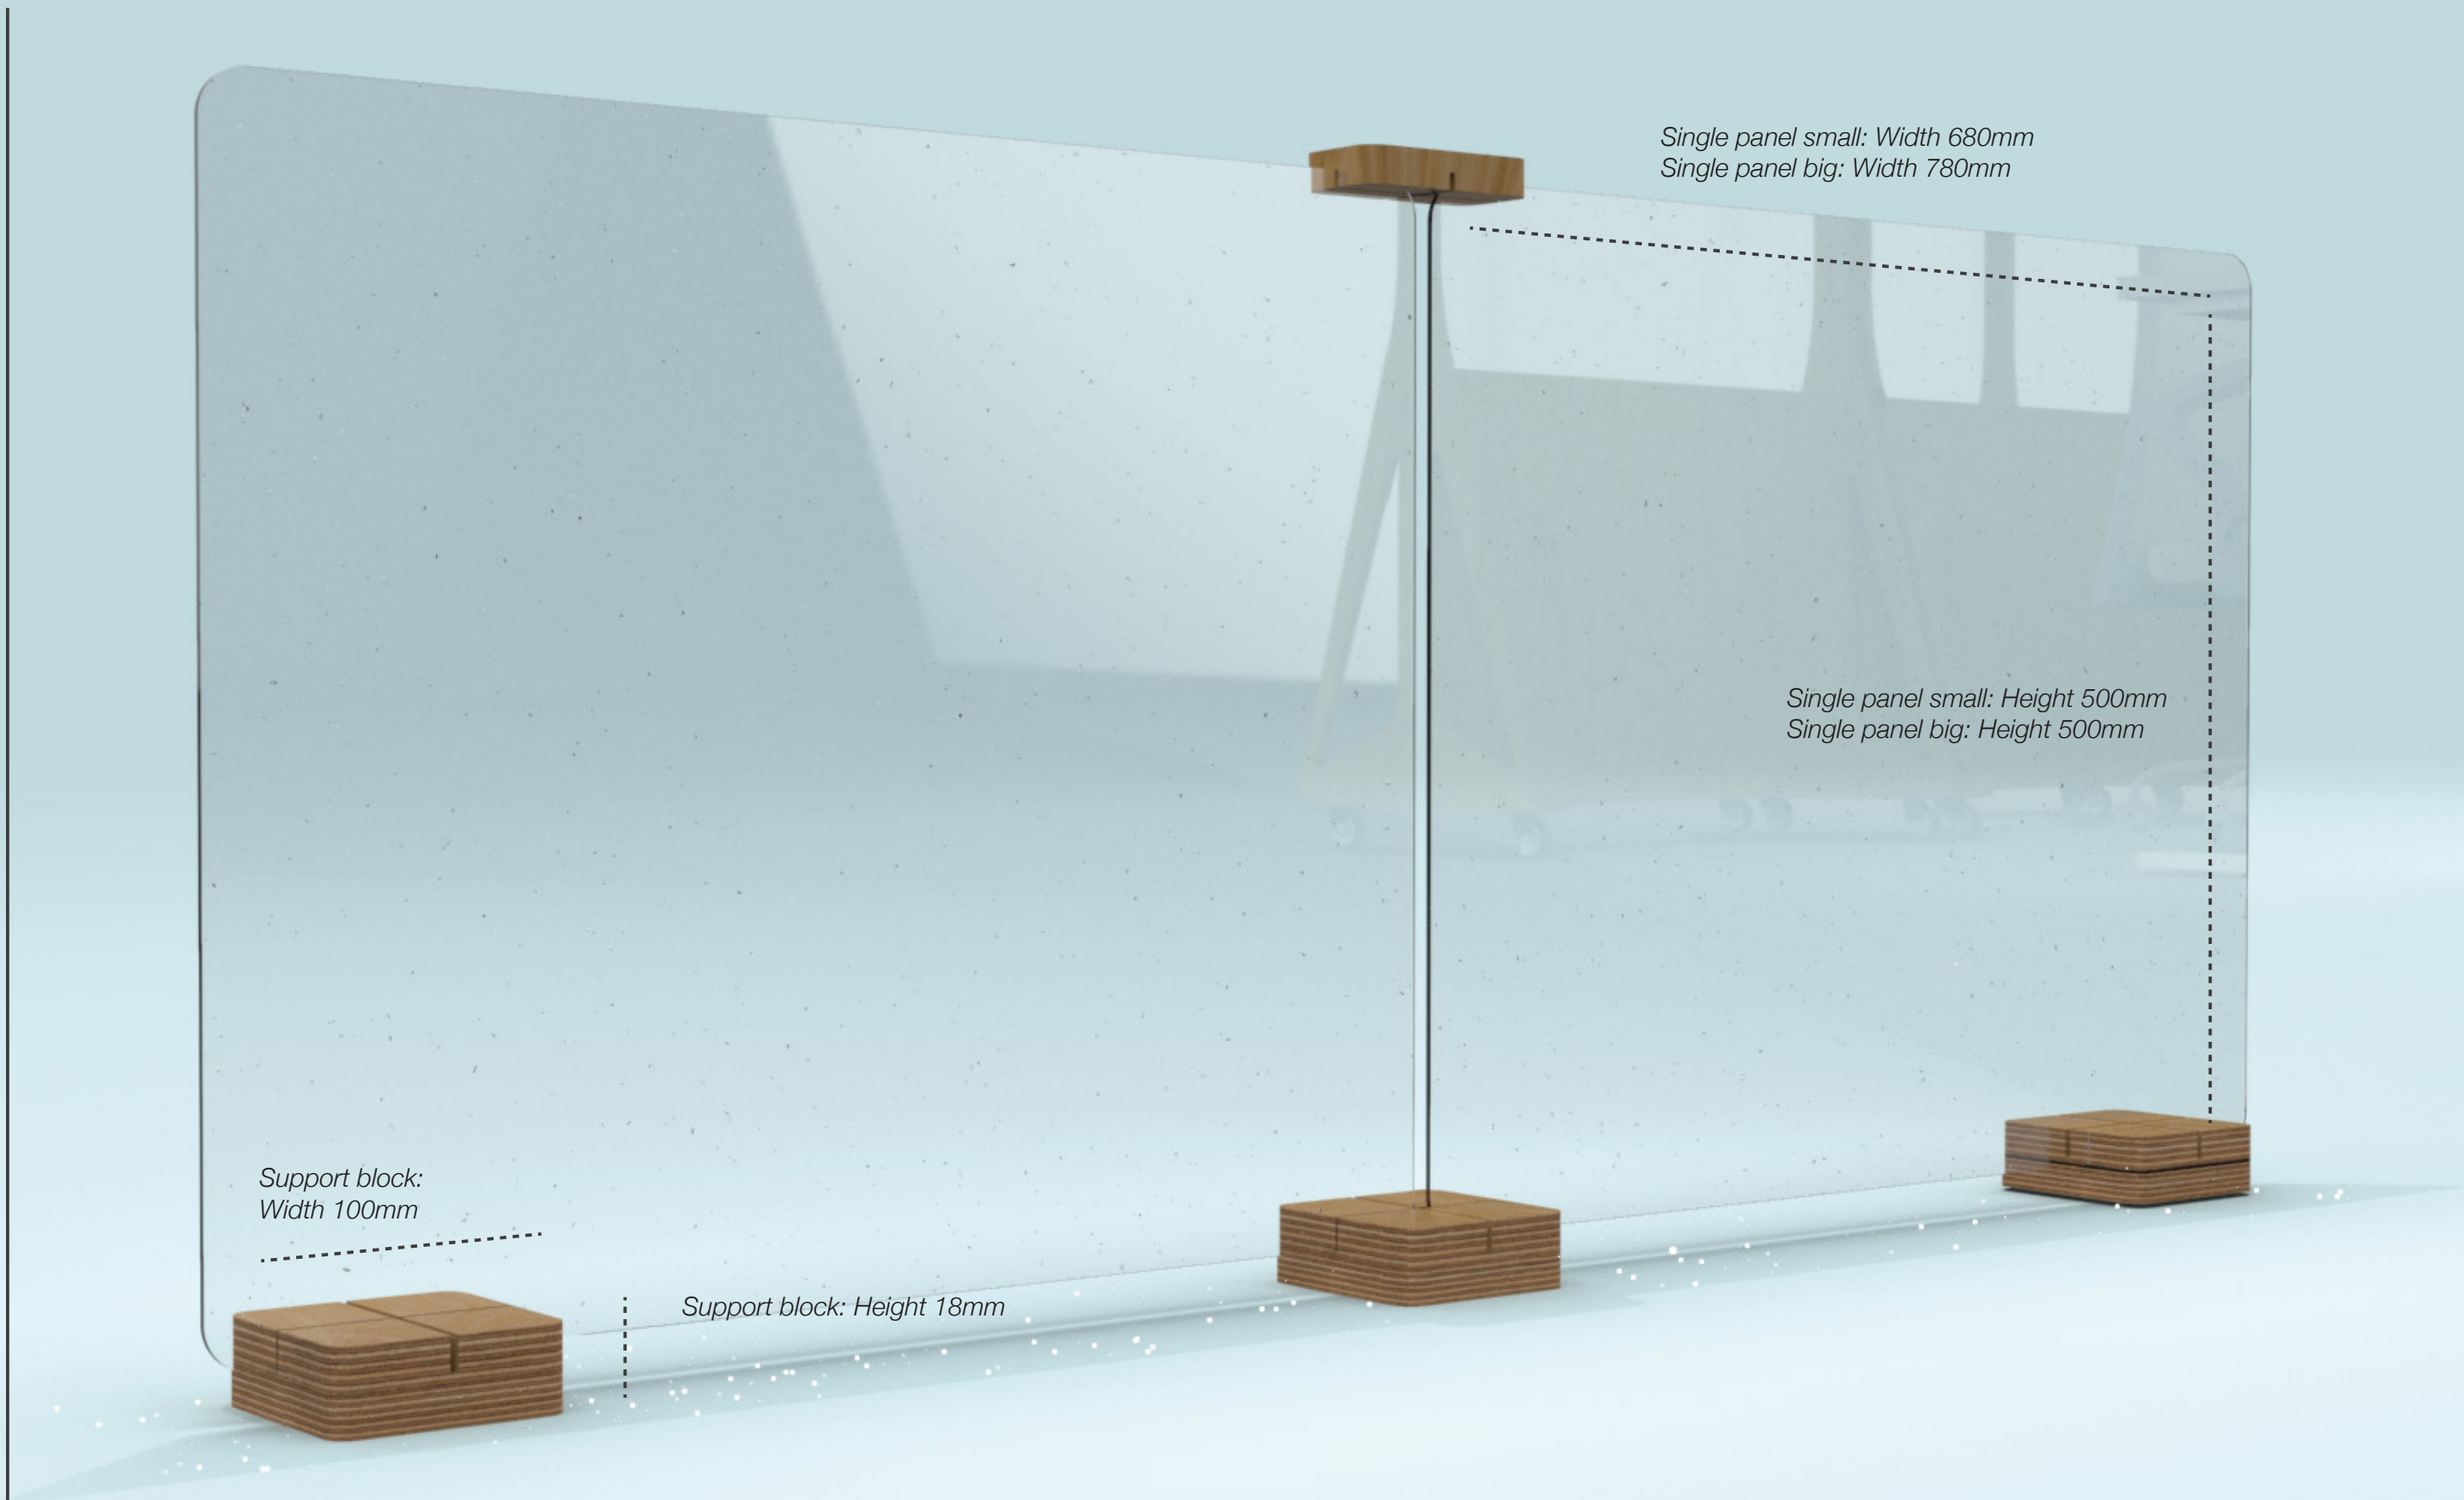

Simple design suitable for any office environment. CNC cut birch ply supports holding panels that come in different sizes and materials.
